Contact me first.

- Served in numerous roles in the federal government including the Regional Emergency Operations Center (REOC) Finance Section Chief/Deputy responsible for the management and execution of appropriated funds during several national disasters receiving recognition for contributions during the Deep Water Horizon, Gold King Mine, Hurricanes Gustav and Ike Incidents.

- Implemented the regional expiring fund utilization/sweep process to significantly improve obligation of expiring resources during their first year of availability and the no-year fund deobligation recovery processes to facilitate the overall reuse of millions in obligated but unliquidated authority.

- Increased the timely execution of appropriated authority across 8 regional divisions, five appropriated funds, and over 100 program projects; technological contributions have improved the flow of appropriated funds to program officials by over 80%.

- Formulates and issues division budget allocations, monitors obligation rates, evaluates financial trends, and generates reports to assist upper management in their strategic decision-making processes.

- Streamlined regional budget execution processes by developing ad hoc financial applications across diverse platforms and programming languages to ensure the timely arrival of vital resources.

- Developed ad hoc financial applications using four different programming languages to assist in budget reporting for all regional allocations and programs..

Citigroup – (Smith-Barney Investments) **2004 to 2007**
Assistant Vice President – Global Consumer Group 40 hours/week
11060 Grader Street, Dallas TX
Supervisor: Carla Breaux (580) 408-2187
Supervisor may be contacted.

OPERATIONS MANAGER **2005-2006**

Directed the daily activities of 35 professional employees in a Fortune 500 Company. Clarified roles and set performance standards, coached employees around core and new business initiatives; coordinated problem solving sessions to continually improve operational performance; responsible for directing the workforce to meet approved schedules and within budget cost and actively pursues ways to improve product quality and customer satisfaction.

****Selected Accomplishments:***

- Responsible for the day-to-day operation of the Global Consumer Group's largest credit card production and management facility. Improvements and policies resulted in the rehabilitation of two under-performing departments.
  - Set new industry records for unit productivity during a single shift.
  - Earned prestigious Citigroup Star Award for Leadership...first-ever Junior Officer to receive award during 1st year with the Company.

- Redesigned work processes to meet increasing consumer demand and Service Level Standards.

- Identified internal control weaknesses and developed/recommended metrics to ensure regulatory compliance of four departments; directly responsible for the achievement of an operational accuracy rate of 99.97% throughout entire tenure and setting a benchmark within financial services.

SR. INTERNAL AUDITOR (SOX 404 COMPLIANCE) **2005-2007**

- Ensured regulatory compliance for the world's largest bank; ensured Sarbanes-Oxley Section 404 requirements across four departments (Credit Cards, Auto Loans, Payment Processing, and Retail Banking).

- Personally developed and maintained comprehensive management information system that continuously monitored and tested key performance indicators Senior Leaders to obtain real-time information on the effectiveness of internal controls.

- Researched deficiencies and developed appropriate internal controls to ensure organizational compliance with several Federal regulations such as Sarbanes-Oxley, Fair and Accurate Credit Transactions, Bank Secrecy, and Securities and Exchange Acts.

- Spearheaded the development and deployment of a comprehensive Managerial Risk Control and Self-Assessment Program founded on recommendations of the Treadway Commission.

U.S. Air Force (Active Duty) **8/1998 to 2004**
Naha Air Traffic Control Operations Center 40 hours/week
PSC 80 Box 20255 AP0 AP
Supervisor: Chris Aymond (505) 715-0199
Supervisor may be contacted.

SENIOR OPERATIONS MANAGER

Directed the daily activities of over 30 professional Air Traffic Controllers in a complex, fast-paced, high-stress work environment; evaluated organizational requirements, prepared formal budget presentations, and administered funds among four departments; led joint efforts on behalf of the U.S. Government, Pentagon, and State Department to facilitate emergency relief, assistance, and humanitarian programs; planned and directed collaborative operations between the U.S. Government and foreign agencies through the direct leadership of multinational teams.

- Supervised cross-functional teams of up to 30 subordinates with full responsibility for work assignments, scheduling, performance review, disciplinary action and long-term career planning/development and promotion.

- Applied the Six Sigma (DMAIC) methodology to aviation operations conducting extensive organizational research evaluating daily operations to identify areas of possible improvement.
  - Redefined obsolete quality metrics and performance expectations to reflect the current operations environment.
  - Leveraged new technology to reduce the Cost of Training by 100k annually per Controller.

- Forecasted personnel requirements and conducted extensive job analysis/redesign to simultaneously support a 100% increase in operations while undergoing a 40% decrease in manpower:

- Enabled the simultaneous support of Operations Enduring Freedom, Iraqi Freedom, **and** United Assistance (2005 Tsunami).
- Efforts earned the receipt of both the Presidential Outstanding Unit Citation and the US Air Force Achievement Medal.

- Proficient at conducting organizational research utilizing complex statistical models such as histograms, regressions, correlations, binomial experiments, and confidence intervals to analyze organizational data, evaluate program execution, and policy efficacy.
  - Identified gaps in operational performance and developed corrective actions and internal controls based on current research and unit goals.
  - Efforts routinely recognized and awarded for exceptional leadership and outstanding results for 5 consecutive years

ASSISTANT CHIEF OF STANDARDIZATION AND EVALUATION (COLLATERAL DUTY)

- Expert qualifications in evaluating personnel needs and developing comprehensive training programs; developed first-ever Career Field Education and Training Program (CFETP) for Air Traffic Controllers encompassing their initial skills training to leadership and managerial development.

- Managed organization's Process Improvement and Quality Control program.
  - Developed "Best Practices" database to share successful techniques and aligned geographically dispersed organizations with federal aviation standards while simultaneously leveraging the Air Force's unique talent around the globe.

- Conducted numerous unannounced audits of critical Air Traffic Control processes to ensure regulatory compliance with federal regulations such as FAAO 7110.65, AFI 13-203, and CFR 91.
  - Efforts facilitated "outstanding" evaluations across two Major Commands (Air Combat Command and Pacific Command).

- Certified over 60 professional Air Traffic Controllers from the Apprentice-level (Trainee) to fully licensed ATC specialist. Confirmed their abilities and performance against established training standards.

- Represented the USAF ATC organizations in forums with foreign government/military organizations; served as ATC Liaison addressing concerns and bringing issues from several special interest groups to senior military leadership.
